iBuild homes use steel frames which underpin the strong solid structure.

- No rotting, no TERMITES, no shrinkage, non combustible.
- Fire hazard reduced as steel frames can withstand great temperatures.
- The walls remain constant in size and NO shrinkage means that weatherboards, colorbond cladding stay sealed for a longer period.
- Materials are light to handle and easy to work with.

We provide every kit home & modular home with a smart home kit package so that your dream home will be ready for the National Broadband Network.

- We will provide a complimentary consultation session for you to discuss your audio visual, and wired & wireless network needs with an industry expert.
- Our smart home kit package includes cables for AV, and networking wiring, so that your dream home will be ready for the national broadband network (NBN).
- Our smart home kit will enable multi-screen and multi-device sharing in your home.
- In addition to the complimentary smart home kit essential package, you will have the opportunity to order an optional home monitoring and automation package.

PLAN YOUR DREAM HOME

Our plans and specifications are drafted with absolute precision and allow for total flexibility.

We know it's your dream, so go for it. Add a third bedroom. Extend the verandah. Change the living area. Include a garage. Above all, make it yours.

READY TO BUILD TO YOUR DESIGN

We have the design expertise and intelligent technology to ensure your plan matches your dream - exactly.

You can choose from over 50 designs. Our stylish collection ranges from one-bedroom cabins through to two-storey family homes with up to five bedrooms. Our drafting and design team will happily collaborate with you to create your perfect house.

And if you have your own design you want to bring to life, we can develop a plan for that, too.

Each customised Homes design comes with fully detailed plans and specifications ready for you to submit to your relevant Council for approval*.

READY TO BUILD HOW YOU WANT IT

Our simple customisation process lets you choose from a collection of quality fixtures and accessories. You can either equip your home with our carefully selected standard inclusions, or choose from our upgrade options. Simply mix and match the combination that suits you best.

We let you choose everything from door handles and laundry tubs to ovens, kitchen taps and benchtops. If you'd like drawers instead of cupboards in your kitchen, or a gas cooktop instead of electric, just ask us. You can even choose your own colour scheme, including the shade of

your COLORBOND® roof.

We fully itemise all upgrade options during this customisation process so you stay in control of costs and within your budget. Tailoring your dream home is fun and easy with iBuild Homes.

READY WHEN YOU ARE

We have the proven capability to deliver to anywhere in Australia. The nature of our products means that even hard-to-access locations pose no problem. Rest assured that we'll get everything there.

We supply only high quality products. All delivered homes come with a comprehensive construction manual and inclusions checklist. If you're building it yourself, or engaging a licensed builder, we're here to help. Our

qualified team is standing by to offer advice and guide you through the build cycle at any time.

It's our professional and customer focused approach that will make your build run like a dream.
