

Home Office Kits

Gunnyah

The Gunyah 4000 measures at 2.5m x 4m x 2.5m, and provides ample space to accomplish your work goals. The classic symmetrical design of the kit allows for a functional space to optimise productivity, and provides a perfect view of your property whilst you work. By having windows on either side of the office and glass front doors, this allows for even dispersion of natural light throughout.
